Software Engineer with X+ years of experience building scalable applications and distributed systems. Passionate about clean code, system design, and delivering high-quality software solutions.

Employment History

2022 - Present Senior Software Engineer - Tech Company Inc.

- Lead development of core platform services supporting **millions** of users daily with 99.9% uptime.
- Built comprehensive monitoring and alerting system, reducing incident response time by **50%**.
- Designed and implemented microservices architecture using modern cloud technologies.
- ▶ Mentored **3** junior engineers on software engineering best practices and system design.

2020 – 2022 Software Engineer – Tech Company Inc.

- ▶ Developed and maintained RESTful APIs serving **10M+** requests daily with sub-100ms response times.
- ▶ Implemented automated testing framework achieving **90%**+ code coverage.
- Optimized database queries and caching strategies, improving performance by 40%.

2018 – 2020 Junior Software Engineer – Startup Solutions LLC

- ▶ Built full-stack web applications using modern JavaScript frameworks and cloud services.
- Developed user-facing features that increased customer satisfaction by **30%**.
- ▶ Implemented security best practices including authentication and data encryption.

Summer 2017 Software Development Intern – Innovation Labs

- Developed mobile application features using React Native for iOS and Android platforms.
- Implemented data visualization dashboard for business intelligence and decision making.

Education

2014 - 2018 Bachelor of Science in Computer Science - - University of Technology

- Cum Laude Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database
 Systems
- ▶ Senior Project: Built full-stack web application focusing on user experience and scalable architecture

Optional Master of Science in Computer Science - - Advanced University

Specialization in Distributed Systems & Machine Learning. Research in cloud computing architectures.

Skills

Programming Languages JavaScript, TypeScript, Python, Java, C++, SQL

Web Technologies React, Node.js, Express, HTML5, CSS3, REST APIs, GraphQL

Backend Frameworks Spring Boot, Django, Flask, FastAPI, Microservices Architecture

Cloud & DevOps AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Terraform

Databases & Storage PostgreSQL, MongoDB, Redis, MySQL, DynamoDB

Development Tools Git, VS Code, IntelliJ, Postman, Jira, Agile/Scrum
